

WORK IT 002: BOBA FETT - JOB HUNTER

SAM

Hey Janet, did you see the
new trailer?

JANET

New trailer for what?

SAM

Oh great, you didn't either.
There's a new trailer for this
movie I really want to see.

JANET

Is it about job hunting, Sam?
Because we're in the middle of an
episode and we don't really have
time to goof off.

SAM

Just watch...

SFX: Sci-fi music, space ship noises.

V/O

Coming next Summer, the movie
event that will take job hunting
to bold new heights.

SAM

(elbowing Janet)
Seeeeee?

JANET

Alright, *shhhh!*

V/O

He's hunted bounties across the
cosmos. He's captured legendary
heroes and worked for the worst
scum in the galaxy. And now, the
legendary space vigilante faces
his greatest test:

More SFX

V/O

Changing careers. The newest film
in the Space Fights saga, it's
Bobal Fatt, Job Hunter.

JANET
Oh wow, I love the Space
Fights saga.

SAM
So much better than that other
space saga.

JANET
For sure, way better and way
less litigious.

SFX and music resume with a jolt. (If we can figure out how to
do a 'jolt', like a record resuming, in Audacity...)

Appropriate SFX.

SAM
What is this place? Some kind of
space lab...

JANET
Looks like it hasn't been used in
years. What do you think Bobal's
gonna do here?

SAM
Oh man, this is so quiet. It's
freaking me out...

JANET
He's not seriously going to
activate the power source, is he?

Dramatic SFX.

JANET
Oh wow! Do you see that?

SAM
He's working on his cover letter!

SFX of typing.

JANET
(reading)
Proficient in many blasters.

SAM
(reading)
Well-versed in Excel and in
bounty hunting.

Cut to: space battle

SAM
Oh, awesome. A space battle! Who's
he chasing there?

SFX of lasers.

JANET
It's a lightweight transporter.
There are three passengers.

SAM
Oh snap, those are his references!

JANET
(to Sam or self)
I was wondering if they'd be in
this one.

SAM
Tractor beam - nice! He's got
them now.

SFX of explosion.

JANET
Oof, so long references.

SAM
Shoulda watched out for that
space debris.

JANET
He looks *really* mad.

Change SFX. Murky swamp sounds.

SAM
Oh man, the effects on this swamp
planet look great.

JANET
Did you see that? Bobal Fatt's in
the corner. In the reeds.

SAM
He seems to be tracking something.

JANET
This is probably the part where
he's hunting for a job.

SFX of a monster roaring.

SAM
Oh my god, there it is!

JANET
It's an entry-level marketing job.

SFX it screams.

SAM
Part-time, no benefits.

JANET
And hundreds of flaming tentacles.

SFX of monster attacking, then laser shots, then
monster shrieking

JANET
He blasted it right in the head.

SAM
I'm not sure if that means he got
the job?

JANET
That's why it's the trailer,
dummy. They can't just tell you.

SAM
Oh yeah, duh.

V/O
If you've ever wanted to see a
movie about an alien pirate guy
checking Workopolis, this is a
pretty good movie for that. Good
enough, anyway. Space Fights 106:
Bilbo Fudge Gets a Job or
whatever. Be there!

JANET
Thank you for showing me that
trailer, Sam.

SAM
We are friends.
